DO THE MONSTER MASH

This Fall in Midtown, Harrisburg was a sight to behold. Displays adorned many houses throughout the neighborhood. A warm spell meant that Horticulture lasted until just after Halloween, when our first cold spell really hit.

For Halloween, Historic City Gardens greeted our Trick or Treaters with signage featuring the Monster Mash, both at our location (above) and the garden we do next door (below).

The unusual, colorful 6' tall Celosia and the deep purple Potato Vine added to the Holiday spirit!

Music was piped in from across the street at Matt & Sarah's, featuring the Monster Mash and other Halloween songs. Their Monster and other decorations delighted all!

Down the street, another Monster scene appeared at Steve and Jefferson's place:

On another block, both the outside of Tom's House and his Garden featured one of the best displays in all of Midtown!. Tom came onto Historic City Gardens just after our Spring Tour. Please visit our website for images of Tom's great Fall display: .
